Pursuant to 37 C.F.R 1.109 and M.P.E.P 1302.14, the following is an Examiner's Statement of Reasons for Allowance:

The prior arts of record do not teach an information rewriting method comprising: a) defining to divide a display image of a monitor applied to a processing terminal on a user side into a plurality of frames, the divided frames being defined to include at least a first group of frames and second group of frames, wherein the first group of frames are defined to recognize occurrence of an event corresponding to a mark or a marked indicator in a display region of the monitor, and the second group of frames are defined when data corresponding to the event that occurs in connection with the first group of frames are transferred from the server to store received data in a storage as the data for the second group of frames; b) substantially limiting the data to those corresponding to information specified based on the event that occurred in connection with the first group; c) transferring the limited data from the server as data for the second group frame of frames; and d) storing the data in the storage of the processing terminal; and executing renewal of an image or reproduction of sound, which corresponds to the event in connection with the first group of frames, with the data stored in the storage as the data for the second group of frames.

The examiner considers the applicants' claims 1-8 and 9-21 to be allowable based on the claim interpretation and the aforesaid prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
